DECISION**

DEVELOPMENT DEPARTMENT**

**Claimant: Appellant (2)**

Section 96.4-3 – Work Search

**STATEMENT OF THE CASE:**

The claimant filed a timely appeal from an unemployment insurance decision dated June 15, 2010, reference 02, which imposed a warning upon a finding that the claimant had failed to make an active work search for the week ending June 5, 2010. After a review of the information in the claimant's appeal letter and Agency benefit payment records, the administrative law judge concludes that no additional testimony is necessary.

**ISSUE;**

Should the warning be removed from the claimant's record?

**FINDINGS OF FACT:**

Having examined all matters of record, the administrative law judge finds: The claimant filed a claim for benefits effective May 30, 2010. The claim was filed late in the week, giving the claimant insufficient time to conduct a full work search.

**REASONING AND CONCLUSIONS OF LAW:**

The question is whether the warning should be removed from the claimant's record.

Iowa Code section 96.4-3 requires that claimants make an active work search each week that they request benefits. The agency ordinarily interprets this to require a minimum of two contacts per week. The record in this case, however, establishes that the claim was filed late in the workweek. The claimant did not have a reasonable opportunity to conduct a full work search. The warning shall be removed.

**DECISION:**

The unemployment insurance decision dated June 15, 2010, reference 02, is reversed. The warning is removed from the claimant's record.
