**Claimant: Appellant (2)**

Section 96.4-4 – Monetary Eligibility and Subsequent Benefit Year

**STATEMENT OF THE CASE:**

Claimant filed a timely appeal from the November 18, 2009, reference 01, decision that denied benefits because of her failure to earn at least \$250.00 in insured wages during or after the prior claim year and not having sufficient wages with other employers in the base period to be eligible to draw benefits. After due notice was issued, a hearing was held by telephone on January 26, 2010. The claimant did participate. Claimant's Exhibit One was received into evidence.

**ISSUE:**

The issue is whether the claimant had at least \$250.00 in insured wages during or after the prior claim year.

**FINDINGS OF FACT:**

Having reviewed all the evidence in the record, the administrative law judge finds: The claimant did earn at least \$250.00 in insured wages subsequent to the prior claim year.

**REASONING AND CONCLUSIONS OF LAW:**

For the reasons that follow, the administrative law judge concludes the claimant is eligible to receive benefits during the subsequent benefit year.

Iowa Code section 96.4-4 provides:

An unemployed individual shall be eligible to receive benefits with respect to any week only if the department finds that:

4. The individual has been paid wages for insured work during the individual's base period in an amount at least one and one-quarter times the wages paid to the individual during that quarter of the individual's base period in which the individual's wages were highest; provided that the individual has been paid wages for insured work totaling at least three and five-tenths percent of the statewide average annual wage for insured

work, computed for the preceding calendar year if the individual's benefit year begins on or after the first full week in July and computed for the second preceding calendar year if the individual's benefit year begins before the first full week in July, in that calendar quarter in the individual's base period in which the individual's wages were highest, and the individual has been paid wages for insured work totaling at least one-half of the amount of wages required under this subsection in the calendar quarter of the base period in which the individual's wages were highest, in a calendar quarter in the individual's base period other than the calendar quarter in which the individual's wages were highest. The calendar quarter wage requirements shall be rounded to the nearest multiple of ten dollars.

If the individual has drawn benefits in any benefit year, the individual must during or subsequent to that year, work in and be paid wages for insured work totaling at least two hundred fifty dollars, as a condition to receive benefits in the next benefit year.

Because the claimant did earn at least \$250.00 in insured wages during or subsequent to the prior claim year beginning November 2, 2008, the claimant is eligible to receive benefits during the current claim year beginning November 1, 2009. The claimant has demonstrated insured employment with Trinity Home Medical at 1039 West Kings Highway, Paragould, AR 72450 (See Exhibit One).

**DECISION:**

The November 18, 2009, reference 01, decision is reversed. The claimant is eligible to receive benefits during the current benefit year beginning November 1, 2009.
