Claimant: Appellant (2)**

Section 96.4(4) – Qualified Earnings

STATEMENT OF THE CASE:

The claimant, Ed Kaff, filed an appeal from a decision dated July 25, 2012, reference 01. The decision found him ineligible to receive unemployment benefits because at least \$250.00 had not been earned in insured wages during or subsequent to a prior benefit year. After due notice was issued, a hearing was held by telephone conference call on August 31, 2012. The claimant participated on his own behalf. Exhibit A was admitted into the record.

ISSUE:

The issue is whether the claimant earned at least \$250.00 during or subsequent to a prior benefit year.

FINDINGS OF FACT:

Ed Kaff filed a prior claim with an effective date of July 17, 2011. The current benefit year was filed effective July 15, 2012. The claimant has earned at least \$250.00 from insured work during or subsequent to the prior benefit year before filing the current claim.

REASONING AND CONCLUSIONS OF LAW:

Iowa Code section 96.4-4 provides:

An unemployed individual shall be eligible to receive benefits with respect to any week only if the department finds that:

4. The individual has been paid wages for insured work during the individual's base period in an amount at least one and one-quarter times the wages paid to the individual during that quarter of the individual's base period in which the individual's wages were highest; provided that the individual has been paid wages for insured work totaling at least three and five-tenths percent of the statewide average annual wage for insured work, computed for the preceding calendar year if the individual's benefit year begins on or after the first full week in July and computed for the second preceding calendar year if the individual's benefit year begins before the first full week in July, in that calendar

quarter in the individual's base period in which the individual's wages were highest, and the individual has been paid wages for insured work totaling at least one-half of the amount of wages required under this subsection in the calendar quarter of the base period in which the individual's wages were highest, in a calendar quarter in the individual's base period other than the calendar quarter in which the individual's wages were highest. The calendar quarter wage requirements shall be rounded to the nearest multiple of ten dollars.

If the individual has drawn benefits in any benefit year, the individual must during or subsequent to that year, work in and be paid wages for insured work totaling at least two hundred fifty dollars, as a condition to receive benefits in the next benefit year.

Under the provisions of the above Code section, the claimant is eligible to receive unemployment benefits on the current claim year, as sufficient insured wages have not been earned as required.

DECISION:

The representative's decision of July 25, 2012, reference 01, is reversed. Ed Kaff is eligible for unemployment benefits, as he has earned at least \$250.00 in insured wages during or subsequent to the previous benefit year.
