**ADMINISTRATIVE LAW JUDGE  
DECISION**

**TRAC-A-CHEC INC**  
Employer

**OC: 11/11/12  
Claimant: Appellant (2)**

Section 96.3(5) – Business Closing

**STATEMENT OF THE CASE:**

The claimant, filed an appeal from a decision dated November 29, 2012, reference 03. The decision denied the claimant's request for a redetermination of benefits based on a business closing. After due notice was issued a hearing was held by telephone conference call on January 2, 2013. The claimant participated on her own behalf. The employer did not provide a telephone number where a witness could be contacted and did not participate.

**ISSUE:**

The issue is whether the claimant's request for redetermination of her claim should be granted.

**FINDINGS OF FACT:**

The claimant was employed until November 13, 2012. On that day President Richard Berg informed her the company had lost a major client and the business would be closing.

**REASONING AND CONCLUSIONS OF LAW:**

Iowa Code Section 96.3-5 provides:

5. Duration of benefits. The maximum total amount of benefits payable to an eligible individual during a benefit year shall not exceed the total of the wage credits accrued to the individual's account during the individual's base period, or twenty-six times the individual's weekly benefit amount, whichever is the lesser. The director shall maintain a separate account for each individual who earns wages in insured work. The director shall compute wage credits for each individual by crediting the individual's account with one-third of the wages for insured work paid to the individual during the individual's base period. However, the director shall recompute wage credits for an individual who is laid off due to the individual's employer going out of business at the factory, establishment, or other premises at which the individual was last employed, by crediting the individual's account with one-half, instead of one-third, of the wages for insured work paid to the individual during the individual's base period. Benefits paid to an eligible individual shall be charged against the base period wage credits in the individual's account which have

not been previously charged, in the inverse chronological order as the wages on which the wage credits are based were paid. However if the state "off indicator" is in effect and if the individual is laid off due to the individual's employer going out of business at the factory, establishment, or other premises at which the individual was last employed, the maximum benefits payable shall be extended to thirty-nine times the individual's weekly benefit amount, but not to exceed the total of the wage credits accrued to the individual's account.

871 IAC 24.29(1) provides:

Business closing.

(1) Whenever an employer at a factory, establishment, or other premises goes out of business at which the individual was last employed and is laid off, the individual's account is credited with one-half, instead of one-third, of the wages for insured work paid to the individual during the individual's base period. This rule also applies retroactively for monetary redetermination purposes during the current benefit year of the individual who is temporarily laid off with the expectation of returning to work once the temporary or seasonal factors have been eliminated and is prevented from returning to work because of the going out of business of the employer within the same benefit year of the individual. This rule also applies to an individual who works in temporary employment between the layoff from the business closing employer and the Claim for Benefits. For the purposes of this rule, temporary employment means employment of a duration not to exceed four weeks.

**DECISION:**

The representative's decision of November 29, 2012, reference 03, is reversed. The claimant was laid off due to a business closing and the claim may be redetermined as a business closing.
