Claimant

**APPEAL NO. 08A-DUA-00029-MT**

**ADMINISTRATIVE LAW JUDGE  
DECISION**

FEDERAL UNIT  
ADMINISTRATIVE OFFICE

**OC: 06/08/08 R: 02**  
**Claimant: Appellant (1)**

20 CFR 625.6 - Weekly Amount of DUA

**STATEMENT OF THE CASE:**

The claimant appealed a Disaster Unemployment Assistance (DUA) decision dated August 20, 2008, that concluded the claimant was entitled to \$147.00 per week in DUA benefits. A telephone hearing was held on September 23, 2008. The claimant participated in the hearing. Exhibit A was admitted into evidence at the hearing. Based on the evidence, the arguments of the claimant, and the law, the administrative law judge enters the following findings of fact, reasoning and conclusions of law, and decision.

**ISSUE:**

What is the correct weekly benefit amount of DUA for the claimant?

**FINDINGS OF FACT:**

The claimant filed an initial application for DUA on August 7, 2008, with an effective date of June 8, 2008. The claimant had a net profit from his self-employment of \$3,371.00 in 2007. As of June 8, 2008, the average weekly payment of regular unemployment compensation in Iowa was \$294.00.

**REASONING AND CONCLUSIONS OF LAW:**

"The Robert T. Stafford Disaster Relief and Emergency Assistance Act" includes a program for the payment of unemployment assistance benefits to individuals unemployed as a result of a

major disaster. See 42 USC §§ 5177, 5189a; 20 CFR Part 625. Under the pertinent federal regulations, the amount of DUA payable to an unemployed individual shall be the weekly amount of regular unemployment compensation the individual would have been paid, as computed under the provisions of the state law and based on the individual's income during the previous tax year. However, if the weekly amount is less than 50 percent of the average weekly payment of regular compensation in the state or the individual has insufficient wages from employment or insufficient or no net income from self-employment to compute a weekly amount, the individual is entitled to a weekly amount equal to 50 percent of the average weekly payment of regular compensation in the state. 20 CFR § 625.6.

In this case, the claimant had \$3,371 income from his self-employment in 2007. The claimant's weekly DUA amount was correctly determined to be \$147.00, which is equal to 50 percent of the average weekly payment of regular compensation in the Iowa.

**DECISION:**

The DUA decision dated August 20, 2008, is affirmed. The claimant's weekly amount of DUA was correctly determined to be \$147.00
