

**IOWA WORKFORCE DEVELOPMENT
UNEMPLOYMENT INSURANCE APPEALS**

68-0157 (9-06) - 3091078 - EI

KEVIN A MOECKLY
Claimant

APPEAL NO. 11A-UI-15052-LT

**ADMINISTRATIVE LAW JUDGE
DECISION**

**IOWA WORKFORCE
DEVELOPMENT DEPARTMENT**

**OC: 04/10/11
Claimant: Appellant (2)**

Iowa Code § 96.4(6) – Department Approved Training (DAT)
871 IAC 24.39 – Department Approved Training (DAT)

STATEMENT OF THE CASE:

The claimant filed an appeal from the November 18, 2011 (reference 03) decision that denied DAT benefits effective January 1, 2012. After due notice was issued, a hearing was held by telephone conference call on December 15, 2011. Claimant participated.

ISSUE:

The issue is whether claimant is eligible for DAT.

FINDINGS OF FACT:

Having reviewed all of the evidence in the record, the administrative law judge finds: Claimant is continuing his accredited bachelor of science in nursing degree program at South University for which he had DAT authorization in the fall of 2011. The degree will provide more overall employment, teaching, and management opportunities and his schedule for 2012 provides specific courses towards that end. Registered nurses and postsecondary nursing instructors are high demand occupations.

REASONING AND CONCLUSIONS OF LAW:

For the reasons that follow, the administrative law judge concludes that the claimant is able to work and available for work.

Iowa Code § 96.4-6-a-b provides:

6. a. An otherwise eligible individual shall not be denied benefits for any week because the individual is in training with the approval of the director, nor shall the individual be denied benefits with respect to any week in which the individual is in training with the approval of the director by reason of the application of the provision in subsection 3 of this section relating to availability for work, and an active search for work or the provision of section 96.5, subsection 3, relating to failure to apply for or a refusal to accept suitable work. However, an employer's account shall not be charged with benefits so paid.

b. An otherwise eligible individual shall not be denied benefits for a week because the individual is in training approved under 19 U.S.C. § 2296(a), as amended by section 2506 of the federal Omnibus Budget Reconciliation Act of 1981, because the individual leaves work which is not suitable employment to enter the approved training, or because of the application of subsection 3 of this section or section 96.5, subsection 3, or a federal unemployment insurance law administered by the department relating to availability for work, active search for work, or refusal to accept work.

For purposes of this paragraph, "suitable employment" means work of a substantially equal or higher skill level than an individual's past adversely affected employment, as defined in 19 U.S.C. § 2319(l), if weekly wages for the work are not less than eighty percent of the individual's average weekly wage.

871 IAC 24.39 provides:

Department-approved training or retraining program. The intent of the department-approved training is to exempt the individual from the work search requirement for continued eligibility for benefits so individuals may pursue training that will upgrade necessary skills in order to return to the labor forces. In order to be eligible for department-approved training programs and to maintain continuing participation therein, the individual shall meet the following requirements:

(1) Any claimant for benefits who desires to receive benefits while attending school for training or retraining purposes shall make a written application to the department setting out the following:

- a. The educational establishment at which the claimant would receive training.
- b. The estimated time required for such training.
- c. The occupation which the training is allowing the claimant to maintain or pursue.

(2) A claimant may receive unemployment insurance while attending a training course approved by the department. While attending the approved training course, the claimant need not be available for work or actively seeking work. After completion of department-approved training the claimant must, in order to continue to be eligible for unemployment insurance, place no restriction on employability. The claimant must be able to work, available for work and be actively searching for work. In addition, the claimant may be subject to disqualification for any refusal of work without good cause after the claimant has completed the training.

(3) The claimant must show satisfactory attendance and progress in the training course and must demonstrate that such claimant has the necessary finances to complete the training to substantiate the expenditure of unemployment insurance funds.

This rule is intended to implement Iowa Code § 96.4(6).

871 IAC 24.40 provides:

Training extension benefits.

(1) The purpose of training extension benefits is to provide the individual with continued eligibility for benefits so that the individual may pursue a training program for entry into a high-demand or high-technology occupation. Training extension benefits are available to an individual who was laid off or voluntarily quit with good cause attributable to the individual's employer from full-time employment in a declining occupation or is involuntarily separated from full-time employment as a result of a permanent reduction of operations.

(2) The weekly benefit amount shall be pursuant to the same terms and conditions as regular unemployment benefits and the benefits shall be for a maximum of 26 times the weekly benefit amount of the claim which resulted in eligibility. Both contributory and reimbursable employers shall be relieved of charges for training extension benefits.

(3) The course or courses must be for a high-demand or high-technology occupation. The department will make available to serve as a guide a list of high-demand, high-technology, and declining occupations. The lists shall be available on the department's Web site and workforce centers.

a. High-technology occupations include life sciences, advanced manufacturing, biotechnology, alternative fuels, insurance, environmental technology, and technologically advanced green jobs. A high-technology occupation is one which requires a high degree of training in the sciences, engineering, or other advanced learning area and has work opportunities available in the labor market area or the state of Iowa.

b. A high-demand occupation means an occupation in a labor market area or the state of Iowa as a whole in which the department determines that work opportunities are available.

c. A declining occupation has a lack of sufficient current demand in the individual's labor market area or the state of Iowa for the occupational skills possessed by the individual, and the lack of employment opportunities is expected to continue for an extended period of time.

d. A declining occupation includes an occupation for which there is a seasonal variation in demand in the labor market or the state of Iowa, and the individual has no other skill for which there is a current demand.

e. A declining or high-demand occupation will be determined by using Iowa labor market information for each region in the state.

(4) The individual must be enrolled in the training no later than the end of the benefit year which included the separation which made the individual eligible for training benefits or the week in which any federal benefit program based upon that benefit year is exhausted. Enrolled before the end of the benefit year means the individual has taken all steps available for entry into the training and has secured a reserved position in the training class. The individual has paid tuition or will pay tuition when the training starts. The training class may begin after the end of the benefit year. The application for training benefits must be received 30 days after the end of the benefit year or 30 days after federal benefits are exhausted. The individual must be enrolled and making satisfactory progress to complete the training program in order to continue to be eligible for training extension benefits.

(5) Training benefits shall cease to be available if the training is completed; the individual quits the training course; the individual exhausts the training extension maximum benefit amount; or the individual fails to make satisfactory progress; and benefits shall cease no later than one calendar year following the end of the benefit year in which the individual became eligible for the benefits. Individuals must file and receive benefits under any federal or state unemployment insurance benefit program until the claim has expired or has been exhausted, in order to maintain eligibility for training extension benefits.

This rule is intended to implement 2009 Iowa Code Supplement section 96.3(5). The claimant's curriculum for a bachelor's degree in nursing is substantial and practical and meets the requirements for DAT eligibility.

DECISION:

The November 18, 2011 (reference 03) decision is reversed. The claimant is eligible for DAT effective January 1, 2012.

Dévon M. Lewis
Administrative Law Judge
